SUMMARY

App and Web Developer with 2+ hands-on experience in **React Native, React.js, Node.js**, and modern JavaScript frameworks, combined with strong **project management**. Proven ability to build, manage, and scale **mobile and web applications** while coordinating cross-functional teams. Experienced in translating product requirements into **high-quality, user-centric applications** with on-time delivery.

TECHNICAL SKILLS:

- **Programming Languages:** C, C++, Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
 - **Frontend Development:** React.js, Next.js, Tailwind CSS, Shadcn UI, Flowbite React, Bootstrap, Responsive UI Design
 - **Mobile App Development:** React Native (CLI / Expo), Cross-platform App Development, REST API Integration
 - **Backend Development:** Node.js, Express.js, RESTful APIs, Authentication & Payment Gateway Integration (Stripe, PayPal)
 - **Databases & Cloud:** MongoDB, MySQL, PostgreSQL, Firebase, Supabase, Neon
 - **Developer Tools & Platforms:** Git, GitHub, Docker, VS Code, Postman, ThunderClient
 - **Frameworks & Libraries:** Next.js, React.js, Express.js, Prisma, Clerk, Inngeist, Gemini AI
 - **Other Skills:** System Design Basics, API Security, Performance Optimization, Scalable Architecture.
-

PROFESSIONAL EXPERIENCE

Unstop

Tech Lead

Offline | Jul 2025 – Dec 2025

- Led end-to-end delivery of Unstop app features, coordinating developers, designers, and stakeholders.
- Converted business requirements into user stories and sprint plans for mobile and web development.
- Managed Agile sprints and releases, improving delivery efficiency by 30% and ensuring 100% on-time launches.
- Optimized team workflows and resource allocation, reducing operational costs by 15%.

LawSikho

Lead Technical and business Analyst

Remote | Sep 2024 – Jul 2025

- Designed and executed an end-to-end learning-to-execution funnel guiding users from app development courses to real-world project delivery.
- Converted course participants into execution-ready developers, enabling them to build and deploy mobile apps and websites.
- Coordinated technical workflows, mentorship, and delivery timelines to ensure successful project completion.
- Optimized processes across learning, execution, and delivery, improving outcomes and reducing operational overhead by 15%.

Carrerwill

Project manager

Offline | Jan 2024 – Sep 2024

- Managed end-to-end delivery of Careerwill's EdTech mobile app features, coordinating app, backend, and server teams.
- Translated learning and business requirements into technical specs, APIs flow, and sprint plans.
- Oversaw app releases, backend integrations, and performance stability, reducing operational inefficiencies by 25%.
- Led a cross-functional team of 15, driving data-informed decisions that improved delivery outcomes and reduced costs by 10%.

PROJECTS

Campusmart [Link](#)

- Built an end-to-end ecommerce app for college students with user app + admin panel for product, order, and user management..
- Implemented core features including authentication, product listings, cart, checkout, payments, and backend APIs.
- Managed server, database, and admin workflows to support real-time orders and inventory control.
- Scaled the platform to 1,500+ student users within the college ecosystem.
- Generated ₹30,000+ in revenue through in-app transactions and student purchases.
- Owned product planning, development coordination, testing, and deployment end to end.

Micro Kahani App [Link](#)

- Built a full-stack short-drama mobile app for an influencer, focused on bite-sized web series and reel-style content consumption.
- Developed the mobile app using React Native (Expo) with smooth vertical scrolling, optimized UI rendering, and seamless video playback.
- Implemented complete creator upload flow including episode upload, thumbnail management, metadata handling, and content moderation.
- Designed and developed Node.js backend with REST APIs for authentication, content delivery, user engagement, and analytics.
- Integrated backend services for video streaming, user interactions, and performance optimization to ensure low latency and smooth playback.
- Managed end-to-end product lifecycle including requirement gathering, development, testing, deployment, and post-launch optimization.

Collegepaglu [Link](#)

Built an advanced college-focused super app combining **social community feed**, **assignment printing requests**, and **food/snacks ordering** into a single platform.

- Developed the mobile app using **React Native (Expo)** with smooth scrolling UI, real-time updates, and optimized performance.
- Implemented **Node.js backend** with REST APIs to handle user authentication, orders, uploads, and role-based access control.
- Designed a comprehensive **admin panel** for order management, content moderation, and operational control.
- Built a dedicated **society dashboard** to manage events, announcements, and member engagement within college communities.
- Delivered end-to-end product execution including architecture design, development, testing, deployment, and scalability planning.

LEADERSHIP EXPERIENCE

Startup Sphere

President

Delhi, India | Jul 2021 – Feb 2023

- Founded and led the largest entrepreneurial society at MAIT, mentoring 20+ student startups, and increasing their success rate by 60%.
- Organized 30+ large-scale networking events, driving a 70% increase in student engagement with entrepreneurial activities.
- Built strategic partnerships with industry leaders, providing valuable resources and opportunities for young entrepreneurs.
- Launched an innovative mentoring program that boosted student participation in startup initiatives by 50%.

EDUCATION & OTHER

Maharaja Agrasen Institute of Technology

Bachelor of Technology (B.Tech), Information Technology

Delhi, India | Graduation Month: 2027

- **Relevant Coursework:** Project Management, Data Structures, Artificial Intelligence, Web Development, Agile Methodologies
- **Awards:** Recognized as **Entrepreneur of the Year (2023)** by MAIT Startup Ecosystem
- **Achievement:**
 - **Finalist at Smart India Hackathon** – Recognized as one of the top teams in India for developing innovative solutions for the Ministry of Ayush in the national hackathon.
 - Awarded ₹10,000 by MAIT for the **Eduverse Project** – Developed a cutting-edge EdTech platform integrating Metaverse and AI-powered attendance system, evaluated by Microsoft employees.
 - Delivered **keynote sessions** on **Startups** and **Time Management** at prestigious institutions such as **IIT Delhi, DPS Gautam Budh Nagar, Christ University**, and several other top colleges across India.
- **Positions:** President of *Startup Sphere* (Largest entrepreneurial society across all IPU colleges)
- **Extracurriculars:**
 - Organizing and mentoring for **entrepreneurial events and hackathons**.
 - Founding **student-led ventures**, fostering leadership and project management skills.

Languages

- **English** – Fluent
- **Hindi** – Native

Certifications & Courses

- **Meta React Native Specialization**
 - **Full-Stack Web Development with React**
 - **Google Project Management: Professional Certificate**
 - **AWS Cloud Practitioner (CLF-C02)**
-

Interests

- **Entrepreneurship** – Passionate about building and scaling startups and mentoring budding entrepreneurs.
- **Technology Innovation** – Interested in exploring AI, AR/VR, and their applications in various industries.
- **Hackathons** – Actively participate in hackathons to solve real-world problems and collaborate with innovative thinkers.
- **Fitness** – Enjoy running and yoga to maintain a balanced and healthy lifestyle.
